

Visual identity

In accordance with Project application, one of the first steps and one of the first activities in Work package Dissemination and exploitation of project results, project partners defined visual identity of the project. After open call to all project partners, the proposals for project logo and project motto were collected and voting was organized. Finally, the following proposals were selected as official marks of the project, and both will be used in all project documents, promotional materials, project web-site, etc.

Project logo:

Project motto: *Transforming data into solutions*
